

Cable Lockout Devices

Flexible multi-point isolation for valves, disconnects and irregular energy-control points

OVERVIEW

PROLOCKEY cable lockout devices provide a flexible way to secure one or several energy-isolation points with a single adjustable system. Their compact bodies and configurable cable lengths make them useful when a standard lockout device cannot fit an unusual handle, valve, disconnect or group of components.

PRODUCT COVERAGE

- Adjustable cable lockouts and universal cable lockout systems
- Steel-core and insulated cable options in multiple lengths
- Fish-shaped, wheel-style, economical and retractable configurations
- Multi-hole bodies for personal or group lockout procedures

TYPICAL APPLICATIONS

Suitable for gate valves, electrical disconnects, breaker handles, control cabinets, compressed-gas equipment, machine guards and multi-point maintenance isolation.

SELECTION & CUSTOMIZATION

Choose cable material and length based on the isolation path, required flexibility, exposure conditions and the number of authorized employees applying personal padlocks.

LOCK OUT. STAY SAFE.

Product specifications are subject to confirmation at the time of order.

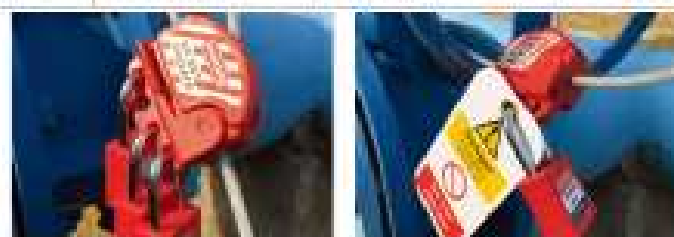

CABLE LOCKOUT

Lock out. Stay safe.

ADJUSTABLE STEEL CABLE LOCKOUT

- Lock body: made of ABS, withstands chemicals.
- Cable: tough, flexible multi-stranded steel cable, with clear plastic insulation coating.
- Cable length can be customized.
- Accepts up to 4 padlocks for multiple lockout application.

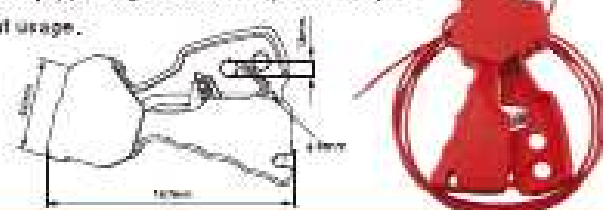

- Includes high-visibility, re-usable, write-on safety labels. Can be customized.
- Ideal for locking out a single valve or multiple side-by-side valves.

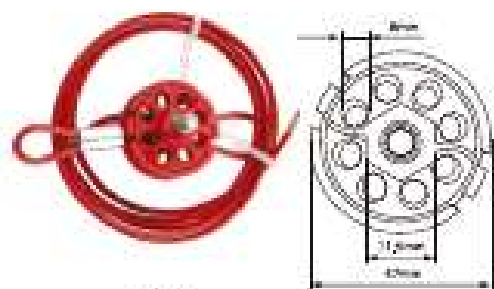

Part No.	Description
CB02	Cable diameter 3.3mm, length 2.4m

- Lock body: made of glass-filled nylon, withstands chemicals.
- Cable: tough, flexible multi-stranded steel cable, with red insulation coating.
- Cable length can be customized.
- Accepts up to 1 padlock to lock out.
- Can be equipped together with hasps for multiple lockout usage.

ADJUSTABLE STEEL CABLE LOCKOUT

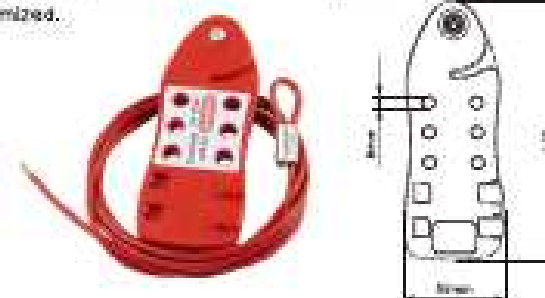

Part No.	Description
CB03	Cable diameter 3.3mm, length 2m
CB03-SS	Cable diameter 2.5mm, length 1.5m (Full body is made from stainless steel)

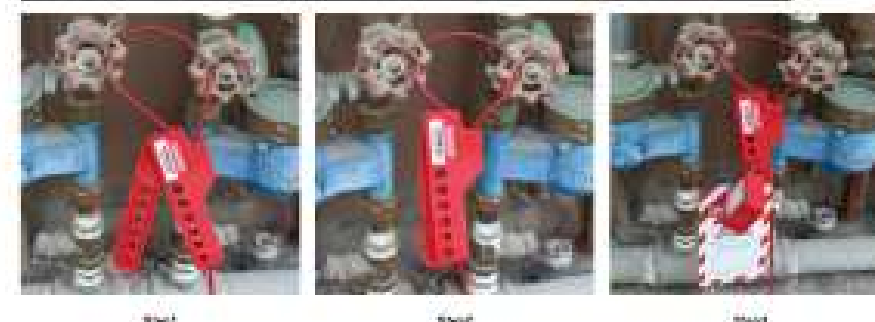

- Made from industrial durable nylon, and insulation coated steel cable.
- Designed to effectively lock out a variety of isolation points, including gate valves, "T" valve handles and other hard-to-secure mechanical devices.
- The handle is designed to operate the device without any tool needed.
- Cable length and color can be customized.
- Accepts up to 8 padlocks for multiple lockout application.

FISH-SHAPED CABLE LOCKOUT

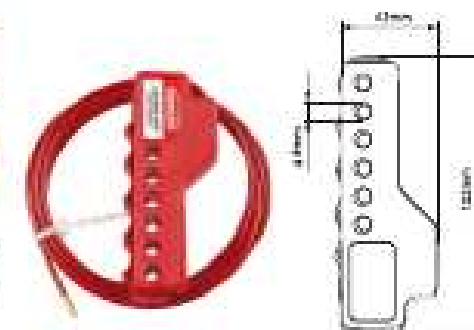

- Lock body made from ABS, with insulation plastic coated steel cable.
- Accepts up to 8 padlocks for multiple lockout application.
- Cable length and color can be customized.
- Includes high-visibility, re-usable, write-on safety labels. Can be customized.

Part No.	Description
CB05	Cable diameter 3.8mm, length 2m

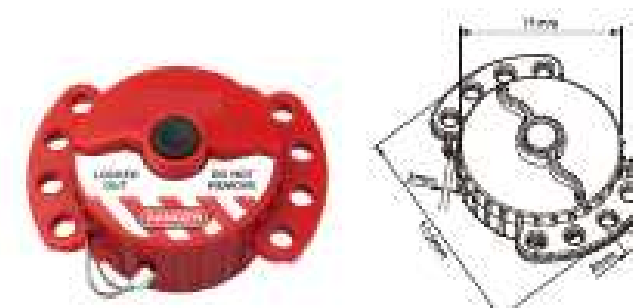

- Made from nylon, with an insulation plastic coated steel cable.
- Accepts up to 8 padlocks for multiple lockout application.
- Non-slip design (fits man's hand shape, Very convenient to be used).

- Cable length and color can be customized.
- Includes high-visibility, re-usable, write-on safety labels.

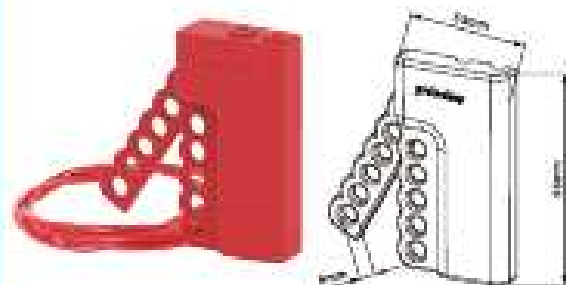

AUTO RETRACTABLE CABLE LOCKOUT

- Made from durable ABS, with stainless steel cable stored internally.
- With auto retractable function, it's easy to operate, compact and portable.
- Push button self-winding mechanism retracts automatically to tightly cinch the cable, leaving no slack.
- Accepts up to 8 padlocks for multiple lockout application, locking shackle max diameter 8mm.
- Designed to effectively lock out different types of disconnect switches and small gate valves.
- Cable length and color can be customized.

ECONOMIC CABLE LOCKOUT

CABLE LOCKOUT

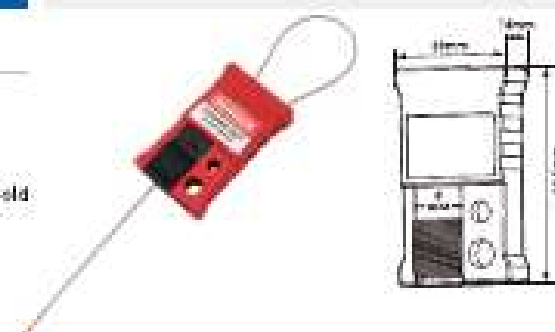

Part No.	Description
CB57-3.2	Cable diameter 3.2mm, length 2.4m, steel cable with plastic coating.
CB57-5	Cable diameter 5mm, length 2.4m, steel cable with plastic coating.

- Made from durable ABS.
- Designed to effectively lock out a variety of energy isolation points as well as difficult-to-secure mechanical devices.
- Available with interchangeable cables, with 3.2mm and 5mm diameter for option.
- Accepts up to 5 padlocks for multiple lockout application.

Part No.	Description
CB58	Cable diameter 1.5mm, length 300mm

- PA body with insulation coated steel cable.
- Used to lock the device with small lock hole.
- Accepts up to 2 padlocks for multiple lockout application. The lock hole diameter is 8mm and 5mm.
- Cable length and color can be customized.

CAR SEAL LOCKOUT

Part No.	Description
CB59	Cable diameter 5mm, length 2.4m, Steel cable with PVC coated.
CB59-3.3P	Cable diameter 3.3mm, length 2.4m, Plastic cable.

- Reinforced durable ABS body, withstand temperature from -20°C to +80°C. Steel cable with insulation plastic/pvc coated.
- Accepts up to 4 workers for multiple lockout application.
- Cable length and color can be customized.

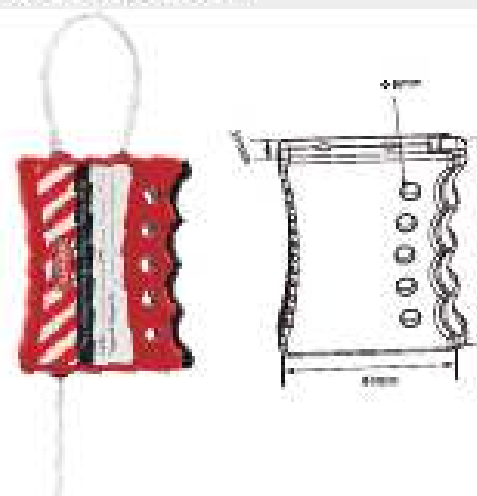

CABLE LOCKOUT

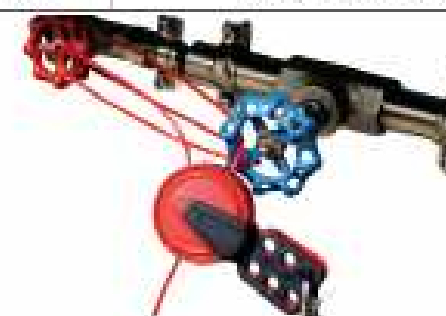

Part No.	Description
CB11	Cable diameter 3.8mm, length 2m

- Reinforced nylon PA body, withstand temperature from -20°C to +80°C.
- The cable with clear plastic insulation coating.
- Ergonomic design, Pop-Up lock, easy to operate.
- Accepts up to 5 workers for multiple lockout application.

CABLE LOCKOUT

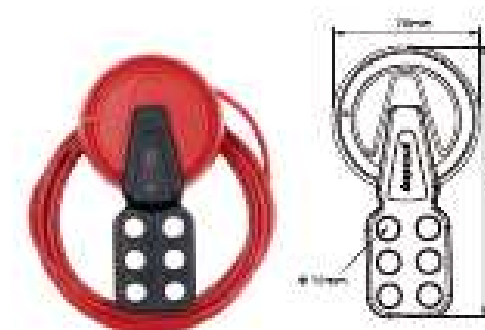

Part No.	Description
CB21	Cable diameter 4.3mm, length 2m

- Made of ABS body withstand chemicals and steel cable with non-conductive nylon coating attachment.
- Lightweight construction for easy handling, carrying and operation.

UNIVERSAL CABLE LOCKOUT

- Accepts up to 6 padlocks for multiple energy isolation points.

ADJUSTABLE STEEL CABLE LOCKOUT

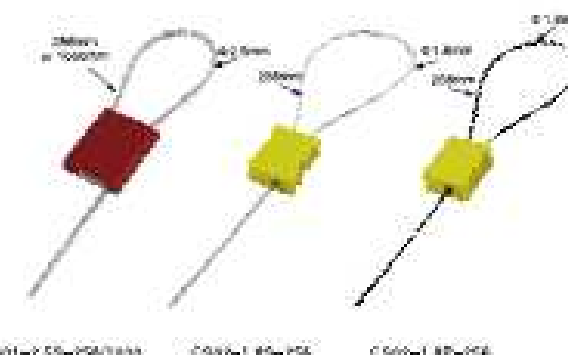

Part No.	Description
CB31	Cable diameter 3.3mm, length 2.8m, Steel cable with PVC coated.
CB31-P	Cable diameter 3.3mm, length 2.8m, Plastic cable.

- Made of strong, impact-resistant alloy, temperature resistance from -20°C to 90°C.
- Big knob for cable retracting, easier to reel in, anti-swing function, make the locking safer.
- Suitable for multi-point locking, support 4 people management at same time.
- Stainless steel cable and pure plastic cable available.

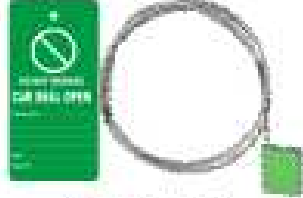

Part No.	Material	Description
CS01-2.5S-256	Aluminum alloy body, with galvanized cable	Cable diameter 2.5mm, length 256mm
CS01-2.5S-1000	Aluminum alloy body, with galvanized cable	Cable diameter 2.5mm, length 1000mm
CS02-1.8S-256	ABS body, with steel cable	Cable diameter 1.8mm, length 256mm
CS02-1.8P-256	ABS body, with insulation coated steel cable	Cable diameter 1.8mm, length 256mm

- Ideal for long term uses, each car seal is self locking. The only way to remove it is by cutting after the cable passed through the body.
- All car seals can be laser printed with individually numbering.
- The length of the cable can be customized.
- Colors can be customized, normally in red, yellow, green and blue.

SECURITY SEAL LOCKOUT

CS01-2.5S-256/1000 CS02-1.8S-256 CS03-1.8P-256

26 CABLE LOCKOUT	Part No.	Material	Description	SECURITY SEAL LOCKOUT	
	KIT-CS01-RED	CS01-2.58-1000-RED x 1 LT51-RED x 1	Cable diameter 2.5mm, length 1000mm	 KIT-CS01-RED	
	KIT-CS01-GRN	CS01-2.58-1000-GRN x 1 LT51-GRN x 1	Cable diameter 2.5mm, length 1000mm		
• Ideal for long term uses, each car seal is self locking. The only way to remove it is by cutting after the cable passed through the body. • All car seals can be laser printed with individually numbering.				 KIT-CS01-GRN
